Dear Sample:

For the past year, your AARP® Medicare Supplement Plan from UnitedHealthcare® has been by your side. And at the one-year mark, there are a few things to be aware of as you make your plans for what's ahead:

Guaranteed coverage for life

If your plan still meets your needs and budget, you don't need to do anything during the Annual Enrollment Period, since your plan will automatically continue at the start of each year.*

Hang on to your current health insurance ID card

Since your current card continues to be valid, you will not receive a new card every year. Your coverage will stay the same year after year, and is guaranteed for life.* You can also use the convenient electronic version through the UnitedHealthcare® app or website.

Annual rate notification

You will be notified of any rate changes on an annual basis. UnitedHealthcare strives to keep your premium rate as low as possible and stable from year to year, while making sure your coverage is there for you when you need it.
