Love your doctors? Keep them.

One value of having a Medicare Supplement plan is that you can visit any doctor or specialist you choose. There is no need to check whether your doctors are in-network. As long as your providers take Medicare, your AARP® Medicare Supplement Plan from UnitedHealthcare® will be accepted as well. This means you have coverage for Medicare-eligible expenses.

Medicare wellness visit

Medicare Part B covers 1 wellness visit* with your primary care doctor each year.

Medicare spotlight:

Preventive screenings

Medicare covers 100% of the cost for many annual health screenings when you go to a provider who accepts Medicare. That means there are no out-of-pocket costs for these tests. If additional tests or services are ordered, that's when your AARP Medicare Supplement Plan will help cover some of the Medicare-approved expenses.

Getting routine screenings may help detect conditions early, when

they may be more treatable. See which of the most common screenings are covered by Medicare.
