

Vision

Vision coverage on many UnitedHealthcare Medicare Advantage plans provides valuable, **additional benefits** not covered by Original Medicare and **broad access to a large national network** of vision providers and retail locations.

\$0 Routine eye exam
\$0 Copay for standard lenses
Eyewear allowance starting at \$100

Benefit Overview

Biennial allowance period

Most members don't need new glasses every year, in fact, many members use their allowance benefit every two years. To align, the eyewear allowance period will extend to two years for Non-SNP, C-SNP and Partial D-SNP members. Most I-SNP and Full D-SNP members will continue to receive an annual eyewear allowance. If a member used their eyewear benefit in 2025 and they remain on the same plan in 2026, they will not be eligible for their eyewear benefit again until 2027.

Predictable copays

Non-SNP members who want to upgrade their lenses will have predictable copays as compared to last year's benefit.

Why UnitedHealthcare?

- Free standard prescription lenses including single vision, lined bifocals, lined trifocals and Tier I progressives – all with scratch-resistant coating.
- Allowance can be used toward the purchase of 1 pair of frames or contacts.
- UnitedHealthcare Vision includes access to a large national network of vision providers and retail locations. Including mail-order eyewear available through online providers like Warby Parker, GlassesUSA.com, 1-800-Contacts and others.

How does it work?

Vision coverage on UnitedHealthcare Medicare Advantage plans offers in-network, routine vision benefits. Members can find a network provider for routine vision care by visiting the member website. As a reminder, members' medical benefits cover medical care for eye diseases such as cataracts, macular degeneration, etc.

UnitedHealthcare Vision

How can you support your members?

- Help members know what to expect for 2026 and how to get the most out of their benefits.
- Help members use our self-service tools to find a provider by logging into the member website and using the Vision Provider Search tool. Or you can find a provider by visiting Jarvis > Quick Access > UHC Vision Care Providers or March Vision Care.
