

Medicare Product Portal

Exclusive access to the latest plan information

Exclusively for agents, the Medicare Product Portal provides early access to UnitedHealthcare Medicare Advantage (MA) plan details - helping you prepare for the Annual Enrollment Period (AEP) and beyond. Easily explore plans by market and compare benefits and features to stay informed on plan specifics.

Key Features

Seamless access from Jarvis through single-sign-on to search and learn about UnitedHealthcare Medicare Advantage plans.

- Prep for the upcoming AEP and get familiar with plan specifics in your market
- Compare plans side-by-side and individual plans benefit-by-benefit
- Search contact information for local sales support team and Producer Help Desk

What's New?

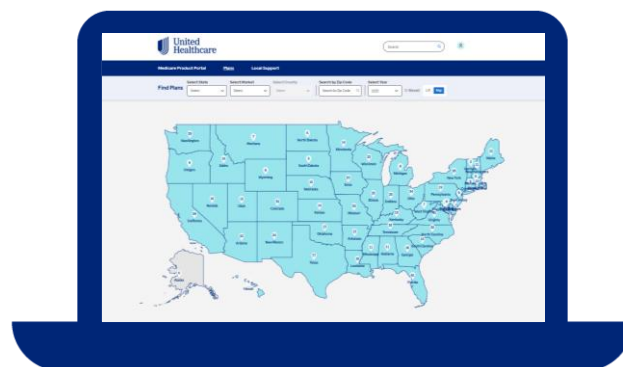

The Medicare Product Portal has been enhanced based on direct feedback from those who use it most. Highlights for 2026 plans include:

- View more plan specifics than ever before
- Select from updated plan filters that align with product features
- Share plans with other users with the improved email design (for agents only)
- Build and print custom maps
- Select plans will include a flag to “see commission notes” with additional details provided when you compare or view plans. All other plans without this flag align to standard commission structure for the plan type.

How it Supports You and Your Business

The Medicare Product Portal is your one-stop shop for UnitedHealthcare Medicare Advantage plan information. As an agent, it's your preview to the 2026 plans before benefits are released to consumers. As you prepare for AEP, use the portal to:

- Learn about plan specifics and compare plans in the same footprint to see how they differ
- Determine what benefits consumers will want to hear about first - apply filters to select plans with distinct features or benefit designs
- Analyze key metrics based on the selected footprint, even down to the county level
- Review the Dual Special Needs Plans for Medicaid eligibility levels to help you recognize which consumers are qualified to enroll (available after rebid)

Medicare Product Portal

Exclusive access to the latest plan information

Important for 2026

- Sneak Peek will reflect a preview of plan benefits while the full plan details will be reflected once the benefits are finalized.
- 2026 benefits and Sneak Peek are preliminary (pending CMS approval) and subject to final regulatory approval and may not be communicated to consumers or members prior to Oct. 1, 2025.
- With the CMS removal of value-based insurance design (VBID), many MA plans offer Special Supplemental Benefits for the Chronically Ill (SSBCI) to members who meet CMS qualifying criteria. Learn about how members qualify for SSBCI in 2026 Certifications. In the Medicare Product Portal, these benefits will include text that reflects: 'for qualified members' so you'll be able to easily recognize this detail

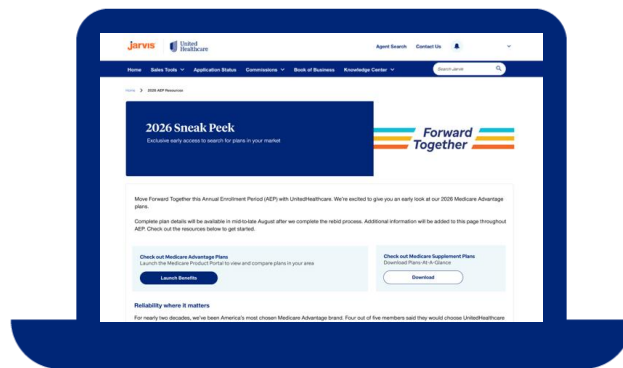

Best Practices and Pro Tips

- Save your searches to quickly access key plans - you can save up to two years of plan information
- Use 'Search' to find plans by plan name, plan ID or other key features
- Once final benefits are released, organize and export plan comparisons to PDF (enabled after rebid)

How to Access

Visit Jarvis to find the Medicare Product Portal under 'Knowledge Center' in the main menu or within the 'Quick Access' section on the right.

- Find more information about UnitedHealthcare's 2026 Medicare plans on the [2026 AEP Resources](#) page on Jarvis
- From there, get direct access into the Medicare Product Portal to select your market and see new and renewing plans - your first look at 2026 plans
- For additional resources, check out a navigation tutorial [eLearning](#) on Learning Lab or view the 'How to Access' and 'How to Compare Plans' Sales Tool Guides on Jarvis > Knowledge Center > Reference Guides > Sales Tool Guides

Visit the [2026 AEP Resources](#) page on Jarvis to learn more.
