

Important information for AARP Medicare Supplement Plans in Texas

Attention agents who offer AARP® Medicare Supplement Insurance Plans from UnitedHealthcare® in Texas.

Effective September 1, 2025, insurance carriers are required to provide a 6-month open enrollment period beginning the first day of the first month an individual residing in Texas enrolls in Medicare Part B if they are under the age of 65 and qualify for Medicare by reason of end-stage renal disease (ESRD) or amyotrophic lateral sclerosis (ALS). During this period:

- Carriers must make available any plans they currently offer in the state
- Applicants will not be underwritten

There are no changes for individuals under the age of 65 who qualify for Medicare by reason of disability, but not ESRD or ALS, and Plan A will continue to be made available to them.

Special Enrollment Period

Individuals who are under the age of 65 who qualify for Medicare by reason of ESRD or ALS will have a special enrollment period (SEP) from December 1, 2025 – June 1, 2026, in which they can enroll in any carrier's Medicare Supplement plan, or they may re-enroll in their current plan. During this SEP, applicants will not be underwritten.
